Professional Summary

CSE (AI) student skilled in Java, DSA, MySQL, DBMS, and Backend Development. Passionate about problem-solving, teamwork, leadership, and building innovative software solutions.

Education

Dr. A.P.J. Abdul Kalam Technical University, (GNIOT)

2024–2028

Computer Science Engineering, Artificial Intelligence B.tech **8.0 GPA**

Activities: Sports, Problem Solving, Computer Science, Project Management, Learner

Skills

Expert: Java, Python, C, C++, Git/Terminal, VSCode/IntelliJ, GitHub, EDA(basic)

Proficient: C, SQL, HTML (Liquid), CSS, JavaScript (React), Excel, MongoDB

Projects

AI-Based Scrap Management System *Tech Stack: MySQL, HTML, CSS, JavaScript, MongoDB, ThunderAPI*

June 2026 - Present

github.com/Rahulchaurasiya-11/Hindalco-AI-Scrap-Management-System

- Developed an AI-Based Scrap Management System for industrial scrap tracking and inventory management.
- Implemented scrap categorization, inventory monitoring, recycling management, and reporting modules.

Hand Gesture Recognition System *Using OpenCV, Python, MediaPipe*

September 2025 - Past

github.com/Rahulchaurasiya-11/Hand-Gesture-Detection-Using-CV

- Developed a real-time hand gesture recognition system using computer vision techniques.
- Implemented gesture detection and tracking using MediaPipe and OpenCV.

Experience

FutureSkillsPrime

Jun 2026–September 2026

Generative AI Internship

Hindalco Industries Internship

June 2026–August 2026

Software Development Intern

- Developed an AI-Based Scrap Management System for monitoring and analyzing industrial scrap data
- Designed REST APIs using Node.js and Express.js for scrap inventory and reporting modules.
- Implemented database operations using MongoDB/MySQL for efficient data management.
- Built dashboards and reports to visualize scrap generation, recycling efficiency, and inventory status.

Cognifyz Technologies

June 2026–July 2026

Software Engineer Intern

- Worked with Git and GitHub for version control and collaborative development.
- Participated in software development lifecycle activities including coding, testing, and debugging.
- Improved problem-solving and software engineering skills through hands-on project execution.

Awards

TechnicalSkills Certificate

2026

Most Transformed Award

April 2026, 2025-2026

Hackathon Event Certification, Finalist

Nov 2025

Poster Design Competition; volunteering

October 2024

Core Python Programming

October 2023

Sport Competition, 1st Place

Nov 2023
